UNIVET

Anti-Fog Cloth, Type: CLOTH

Order data

Order number	096954 CLOTH
GTIN	8052101271546
Item class	04H

Description

Version:
Microfibre anti-condensation cloth that can be used up to 200 times. The cloth leaves behind surfactants on the lenses of the glasses, which **prevent condensation for up to 6-8 hours.** Size: 15×18 cm (L×W).
Suitable for:
All popular safety glasses and safety goggles. The anti-condensation effect is independent of the coating on the lens.
Note:
It is recommended to clean the lenses before use and store the cloth in the supplied bag.
