

## Kraftform Kompakt 60 Imperial, 17 pieces

Kraftform Kompakt 60, 62

**EAN:** 4013288156037  
**Part number:** 05051042001  
**Article number:** KK 60 Imperial

**Size:** 155x130x55 mm  
**Weight:** 520 g  
**Country of origin:** CZ  
**Customs tariff number:** 82079030

- Suitable for manual and power tool operations
- Smooth hard zones for high speed turning, soft grip zones for high torque transfer
- Rapidaptor quick-release chuck
- Tough viscous bits for universal use
- In robust pouch

Pouch with bits in a length of 89 mm. Comes with a Kraftform holder (816 R) with Rapidaptor quick-release chuck and multi-component Kraftform handle for low-fatigue working. Kraftform Plus: Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Suitable for both manual and power tool operations; 17-piece.

#### For fixed workplace locations and external sites

Why is the right tool so often not at hand? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry them onsite. So for us it was a clear challenge: to design a tool that is suitable for a whole host of applications and can be easily taken along to jobs at other sites. Our solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted. Compactly and protectively housed in a light and robust textile pouch or plastic box.

Frequently, users have to work with their tools at a fixed workplace location as well as at external sites. Just as frequently, it is only on site that a decision is taken as to whether to work manually or with a power tool. The Kraftform Kompakt tool sets equip the user for both types of operation with just single set. Additionally, the sets are kept in belt pouches or plastic cases. This keeps them secure and clean and means that they are clearly arranged for easy tool selection, something that is very practical when they are to be used or transported.

#### Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

#### Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
