

Series 7400 Imperial Krafftform torque screwdrivers with a customised factory pre-set measurement value, pistol handle, 7467 x 25-55 in. lbs.

Series 7400 Krafftform Torque Screwdrivers, adjustable to customer requirements within the specified measurement range

<b>EAN:</b>	4013288188274	<b>Size:</b>	150x100x37 mm
<b>Part number:</b>	05074721010	<b>Weight:</b>	260 g
<b>Article number:</b>	7400 Imperial customized pre-set, pistol handle	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Customized pre-set torque screwdriver with pistol handle
- Suitable for bits with 1/4" hex head drive
- Rapidaptor technology for rapid bit change
- Distinct signal when pre-set value is reached
- Multi-component Krafftform handle for high working speeds

Wera torque screwdriver. Krafftform pistol handle for particularly high torque transmission, multi-component for high working speeds and particularly ergonomic screwdriving. With a customised factory pre-set torque value. For all applications, where the same constant torque and repeat accuracy are required. The torque can be changed with an extra tool within the measuring range (re-calibration kit can be ordered with the code number 05137002001). Afterwards you can check the set value using an off-the-shelf torque tester. Rapidaptor quick-release technology for rapid bit changes. Unlimited loosening torque for slackening stuck screws. Multi-component Krafftform handle with hard and soft zones for high working speeds, whilst being easy on the hand. Please note: 1 Ncm = 0.01 Nm.

Series 7400 Imperial Kraffform torque screwdrivers with a customised factory pre-set measurement value, pistol handle, 7467 x 25-55 in. lbs.

Series 7400 Kraffform Torque Screwdrivers, adjustable to customer requirements within the specified measurement range

**Pre-set, adjustable torque screwdrivers**

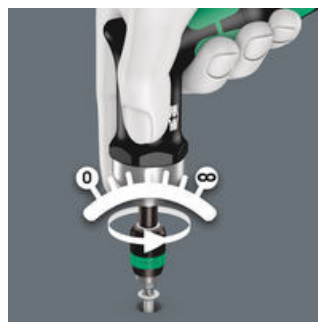

Pre-set, adjustable torque screwdrivers

Pre-set torque, adjustable within a defined range. Also available in ESD version (also for HIOS/Halfmoon bits) and with Kraffform Micro handle.

**Unlimited torque**

Unlimited torque for loosening seized screws.

**Versatile**

Rapidaptor technology makes the tool adaptable since bits and sockets can be exchanged rapidly.

**Chuck-all**

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

**Rapid-in and self-lock**

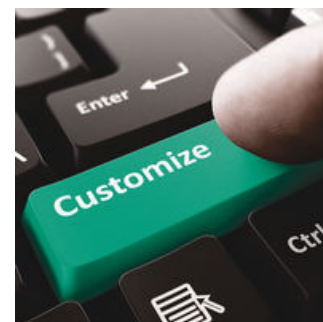

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

**Rapid-out**

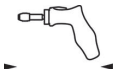

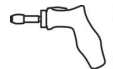

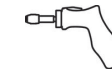

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

**Customised pre-setting**

The pre-set torque screwdrivers 7400, 1460, 1461 with a pre-set torque value can be set to any value within the specified metered range in the test laboratory.

**Further versions in this product family:**

							
art. no.	inch	in. lbs.	mm	mm	inch	inch
