

## 847/7 Set Combination Drill Bits Set, 7 pieces

Bit Sets for Special Applications

<b>EAN:</b>	4013288111685	<b>Size:</b>	150x115x35 mm
<b>Part number:</b>	05104651001	<b>Weight:</b>	289 g
<b>Article number:</b>	847/7 HSS	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82075060

- Ideal for mobile repair and assembly work
- Rapidaptor holder for rapid bit change
- 1/4" drive suitable for power screwdrivers
- Rapidaptor universal holder and combination tapping drill bits with 1/4" drive
- In practical and robust plastic box

7-piece combination tapping drill bit set by Wera in a stable plastic box. 1/4" drive suitable for holders as per DIN ISO 1173-D 6.3. Comes with Rapidaptor quick-release chuck for insertion in the power screwdriver or the chuck of the electric drill. The hexagonal shaft ensures very good power transfer. HSS = high speed steel. A finely-tuned material elasticity provides for great durability. Very good centring properties. Easy cutting. Perfect chip removal. Low tilt risk. Precise return movement.

Bit Sets for Special Applications

Combination drill bits

Combination drill bits  
 Application: Core-hole drilling, tapping and deburring in one operation  
 1/4" drive suitable for holders as per DIN 3126-D 6.3 (ISO 1173)  
 Hexagon shaft for very high torque transfer  
 HSS = high speed steel  
 Finely adjusted material elasticity for long service life  
 Excellent centring properties  
 Straightforward cutting  
 Perfect chip removal  
 Low jamming risk  
 Precise return control

Rapidaptor holder

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Single-hand function

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.

Rapid-spin

The free-turning sleeve allows screw steadying at the start of the screwdriving process. This makes it easier to apply the tool to the screw and prevents slipping. It can also be used as a short extension for 1/4" applications e.g. in combination with the Wera Zyklus Ratchets.

Non-magnetic design

Non-magnetic bitholders that do not attract metal filings.
