

# Wera 2go H 1 tool set for wood applications, 134 pieces

Wera 2go

<b>EAN:</b>	4013288217677	<b>Size:</b>	370x345x140 mm
<b>Part number:</b>	05134011001	<b>Weight:</b>	7490 g
<b>Article number:</b>	Wera 2go H 1	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82060000

- Extensive 134-piece tool set in compact Wera 2go tool container for carpenters on the go
- Premium brand tools by Wera, BESSEY®, "KIRSCHEN"®, KNIPEX®, Lyra®, PICARD® and Stabila®
- Wera Kraftform Kompakt H 1 Wood (41-piece set) and Wera Bit-Safe 61 Wood 1 (61-piece set)
- 393 S extra slim bit hand holder with flexible shaft for applications in hard-to-reach work spaces
- Wera L-key with holding function: 967/9 TX XL Multicolour HF 1 (9-piece set) and 950/9 Hex-Plus Multicolour HF 1 (9-piece set)

Compact tool set with the 134 most important tools for woodwork with products by Wera, BESSEY®, "KIRSCHEN"®, KNIPEX®, Lyra®, PICARD® and Stabila®. Mobility is made considerably easy thanks to the compact tool container from the Wera 2go system.

### Wera 2go 2 – The outside and inside packer

Wera 2go Tool Container with inner and outer hook and loop fastener system. Individually configurable for greater mobility. Ideal also for the docking of Wera textile boxes and pouches equipped with hook and loop fastener zones. Easy insertion and removal. Hands remain free during transport.

### L-keys with holding function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw on the tool.

### Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

## Wera 2go

### TORX® HF profile

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

### L-keys with a thermoplastic sleeve

L-keys with a thermoplastic sleeve are manufactured out of easy-to-grip, circular material. The sleeve ensures that work is safe and comfortable even at low temperatures. High corrosion protection features thanks to the special BlackLaser surface treatment. Colour coding and large stamp to enable the desired L-key to be easily located.

### Flexible shaft

Around the corner screwdriving with the 393 S screwdriver. The flexible shaft allows to reach fixing screws in unfavourable positions. The ideal tool for screwdriving situations that are difficult to reach.

### Slim bit holder 393 S

The particularly slim bit holder allows working in very tight work spaces.
