| Head $\varnothing$ | 10 mm |
| Working length | 20 mm |
| Overall length | 64 mm |
| Shaft $\varnothing$ | 6 mm |
| Serration | Cross-cut serrati- <br> on |

- Carbide burrs with cross-cut serration for general applications. The cross-cut serration permits comfortable working and better control. Thanks to the improved ease of cutting, the material removal is increased. Suitable for almost all metals, such as hardened and unhardened steel, stainless steel, titanium, brass, copper, cast iron, bronze.
- Application examples: Deburring, machining of contours, processing of surfaces, milling of hard to reach places, machining of narrow angles
- For processing surfaces, contours and radii.
