

### 3 Bits for Torx screws T20/ 25 mm Diamond

- Screwdriving bits made from chrome vanadium steel (S2 quality) for high durability and forced closure with the screws
- Special diamond coating for extremely safe fit in the screw. Reduction of the "come out" effect, thus significantly reduced workload
- The torsion zone permits to equalise torque peaks, since it absorbs forces and vibrations during the screwdriving process. High force load possible; prevents from premature breakage.
- 1/4" hex drive

<b>Order no.</b>	<b>628509000</b>
<b>EAN code</b>	<b>4061792003996</b>
Bit size	T20
Overall length	25 mm
Sales unit	3
