**KL-0050-60 Special Socket (13mm waf),
Strut Mount, VW**

Universally applicable to VW-Audi, Seat and Skoda vehicles equipped with three-bolt strut mounts with hexagon or octagon fixing nuts.

Field of Application

An indispensable tool designed to counter-hold the nut on the strut mount in a professional way when undoing the bolt. The special socket prevents the press-fitted nut from breaking away when unscrewing the bolt from the strut mount, thus, avoiding the labour-intensive process of drilling the strut mount bolt out of its bore.

The tool can quickly be adapted to suit hexagon and octagon nuts - simply by reversing the socket.

The special design of the socket and the use of the extension provided allow even nuts that are difficult to access to be counter-held properly.

Technical Data

Drive: 3/8"
Size (waf): 13mm
Profile: hexagon or octagon

KL-0050-61

**KL-0050-61 Special Socket (14mm waf),
Strut Mount, VW**

Universally applicable to VW-Audi, Seat and Skoda vehicles equipped with three-bolt strut mounts with 14mm (waf) hexagon fixing nuts. For example, with 1K0 412 331 B strut mounts.

Field of Application

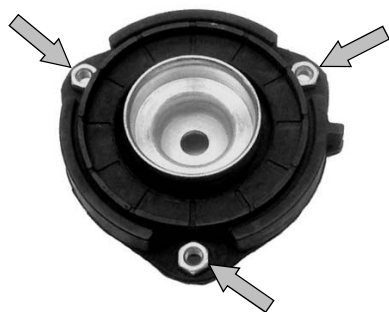

An indispensable tool designed to counter-hold the nuts on the strut mount in a professional way when undoing the bolt. The special socket prevents the press-fitted nut from breaking away when unscrewing the bolt from the strut mount, thus, avoiding the labour-intensive process of drilling the strut mount bolt out of its bore.

The special design of the socket and the use of the extension provided allow even nuts that are difficult to access to be counter-held properly.

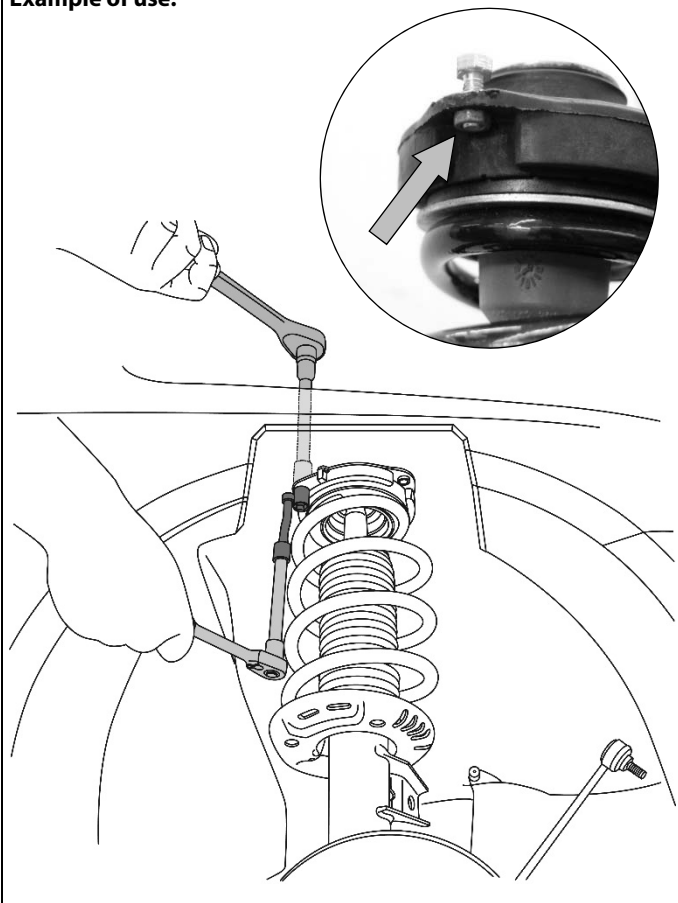

Technical Data

Drive: 3/8"
Size (waf): 14mm
Profile: bi-hex

Three-bolt strut mount
