Product description

KL-0190-12 - Pry Bar with Handle

Universal application.

This strong fork-type pry bar is a very versatile tool suitable for a wide range of jobs on the vehicle. Typical applications include levering off panels, axle parts, rubber exhaust hangers and housings as well as checking silentblochs/bushes and ball joint connections on vehicle axles.

Particularly useful for separating push-fit ball joint connections on shifter cables and shift linkages. An indispensable tool when replacing a clutch or carrying out repairs on transmissions etc.

- Fork length:.....60mm
- Overall length:..... 250mm

⚠ Safety instructions and regulations

- ✔ The tips of the fork can bend if you use brute force!
- ✔ **Before using** the tool, read and understand all safety instructions and **follow** them for **safe use**!
- ✔ Ensure that maintenance and repair work on motor vehicles is only carried out by trained specialists in specialist automotive workshops, taking into account occupational safety and accident prevention as well as the instructions of the vehicle manufacturer!
- ✔ **Prior to each use**, check the tool **carefully** for damage, loose parts or unauthorised modifications. **Never** use it if you notice any such deficiencies!
- ✔ Use the tool **as intended** and **always** observe the vehicle-specific application procedures in the vehicle manufacturer's repair manual!
- ✔ **Always** wear your personal protective equipment (*for example safety goggles, protective gloves, safety shoes*) when working!
