Version 10/2022

0414-2_EN220711.indd

Product description

KL-0414-2 Drive shafts disassembly lever

Universally suitable for passenger cars and vans with plugged-in drive shafts on the gearbox. Installed e.g. in Alfa Romeo, BMW, Citroen, Dacia, Ford, Fiat, Hyundai, Kia, Mazda, Mercedes, Mini, Nissan, Opel, Peugeot, Renault, Toyota, Volvo and many more.

Alternative tools: BMW 315110, Opel DT-51329-A, Ford 204-226

For quick and easy pressing out of plugged-in drive shafts on the gearbox. The articulated foot on the disassembly lever which can be adjusted in length, position and angle, enables an optimal and damage-free support by the gearbox.

EN

Scope of supply/component overview

| Item | Part no. | Description | Qty. |
|------|----------------|-------------------|------|
| A | KL-0414-2001 | Lever | 1 |
| B | KL-1381-2004 A | Protective handle | 1 |
| C | KL-0414-2002 | Articulated foot | 1 |

Specifications

Length: 610mm

Blade width: 40mm

Weight: 1.5kg

⚠ Safety instructions and regulations

- ✔ **Prior to each use** of the special tools, read and understand all safety instructions and **follow** them for **safe use!**
- ✔ Use the special tool **as intended** and **always** carry out maintenance and repairwork in compliance with the regulations on occupational safety and accident prevention as well as the vehicle manufacturer's instructions!
- ✔ **Before each use**, check the special tool **carefully** for damage, loose parts, or unauthorised modifications. **Never** use it if you notice any such deficiencies!
- ✔ **Always** wear your personal protective equipment (*such as safety goggles, protective gloves, safety shoes*) during work!

📷 1: Screw in the articulated foot [C] accordingly. It is essential to note the installation position in relation to the blade!

Typical application

This application example describes the pressing out of a plugged-in drive shaft on the gearbox.

1. First, loosen all parts required for disassembling the drive shaft according to the manufacturer's specifications.

2. Depending on the support available on the vehicle, screw the articulated foot [C] into one of the three holes on the lever [A] **in the correct position**. 📷 1

ⓘ It is **essential** to ensure that the articulated foot is installed in the correct position in relation to **the blade** on the lever [A].

3. Now place the disassembly lever on the drive shaft accordingly and press it out of the gearbox. 📷 2

ⓘ Transmission oil can leak out, so it is **essential** to observe the manufacturer's specifications!

📷 2: Press out the plugged-in drive shaft on the gearbox, observing the manufacturer's specifications!
