KL-0127-800 K

KL-0127-800 K Ignition coil puller set
(4 pcs.)

Suitable for VW-Audi petrol injection engines.

Application

To remove and put on ignition coils (with final output stage) on VW-Audi petrol injection engines.

Technical Data

Weight: 1,7 kg

Specification

| Part No. | Description | Qty. |
|---------------------|------------------------------|------|
| KL-0127-800 K | Ignition coil puller set | 1 |
| <i>consists of:</i> | | |
| KL-0127-81 | Ignition coil puller | 1 |
| KL-0127-82 | Ignition coil puller | 1 |
| KL-0127-83 | Ignition coil puller | 1 |
| KL-0127-84 | Ignition coil puller | 1 |
| KL-0127-8090 | Plastic Storage Case (empty) | 1 |

Application examples

KL-0127-81

KL-0127-82

KL-0127-83

KL-0127-84

KL-0127-81 Ignition coil puller

Suitable for 1,4 / 1,6 L 16V petrol injection engines.

Engine code: AZD, BCA, BCB

e.g. for VW, Bora, Golf, New Beetle etc.

Length: 137 mm Weight: 145 g

Opening width: 26,3 mm

KL-0127-82 Ignition coil puller

Suitable for 6-Cyl. (4V) and 5-Cyl. petrol injection engine e.g. for VW, Bora, Golf, Passat, Sharan, Touareg, Phaeton and T5.

Length: 134 mm Weight: 130 g

Opening width: 18 mm

KL-0127-83 Ignition coil puller

Suitable for 1,8 L turbo petrol injection engines.

Engine code: ARZ, AQA, AUM, AUQ

e.g. for Audi A3, TT and VW, Bora, Golf etc.

Length: 50 mm Weight: 85 g

Opening width: 38 mm

KL-0127-84 Ignition coil puller

Suitable for 8- and 12-cylinder petrol injection engines e.g. for VW Passat and Phaeton.

Length: 118 mm Weight: 143 g

Opening width: 35,5 mm

Warnings and Notes

- Work engines should only be performed by trained personnel observing safety instructions and procedures issued by the vehicle manufacturer, and using the correct tools.
- The vehicle manufacturer's data apply to all works done on the vehicle.
