

Kraftform Kompakt VDE 16 extra slim 1 Tool finder, 16 pieces

Kraftform Kompakt VDE

EAN:	4013288229946	Size:	200x120x80 mm
Part number:	05006608001	Weight:	648 g
Article number:	Kraftform Kompakt VDE 16 extra slim 1 Tool Finder	Country of origin:	CZ
		Customs tariff number:	82054000

- VDE-insulated Kraftform 817 VDE bitholding screwdriver with anti-roll protection
- VDE-insulated blades 157 mm length
- Reduced blade diameter with integrated protective insulation for lower-lying screws
- Blades with "Take it easy" Tool finder with colour coding by profile and laser-engraved size indication
- Individually tested tool as per IEC 60900 at 10,000V
- In robust pouch
- Suitable for Wera 2go

One 817 VDE Kraftform bitholding screwdriver and 14 VDE blades with "Take it easy" Tool finder: Colour coding and laser-engraved size indication. With reduced blade diameter and integrated protective insulation - low-lying screw and spring elements can be easily reached and operated. Individually tested at 10,000 V for safe working at the approved voltage of 1,000 V. One single-pole phase tester. In a robust belt pouch. The textile box features a fleece zone at the back. Using the provided self-adhesive hook and loop fastener strips, the textile box can be attached to the Wera 2go components. Or to the wall, shelf or workshop trolley.

Kraftform Kompakt VDE

Individually tested

Why is the right tool so often missing at the workplace? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry keep them with you. So for us it was a clear challenge: to develop a tool that is suitable for a whole host of applications and can be easily taken along to the workplace. Our solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted. Compactly and protectively housed in a light and robust textile pouch - and they are even VDE-tested, too.

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900. This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Easy change

The Kraftform Kompakt VDE blades can be replaced simply by pulling down the yellow ring on the handle.

VDE interchangeable blade with reduced shaft diameter

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

PlusMinus screwdrivers

For the use in terminal blocks, control cabinets, switches, relays, sockets etc.

“Take it easy”

The Kraftform Kompakt VDE blades are equipped with the “Take it easy” Tool finder. The colour coding by profile and the laser-engraved size indication make it easy to identify the required tool quickly.

Hexagonal anti-roll feature against rolling away

The Kraftform Kompakt blades come with an anti-roll protection. The hexagonal shape hinders the blade from rolling away annoyingly at the workplace.
