

30-20+T Puller assortment – Industry – BASIC+

DESCRIPTION

The BASIC+ puller set for the industry is a wall panel stocked with suitable tools for use and storage in workshops and industry. The set includes, in addition to 2-jaw universal pullers with quick adjustment pulling jaws, also 3-jaw cross beams and various hooks that can be combined into different external pullers for various applications thanks to the KUKKO modular system. Together with the included separating device, the set is suitable for external extraction, internal extraction, and separating pull, making it ideal for versatile use in the industry.

RANGE OF APPLICATION

For use and storage in workshops and industry.

BENEFIT

- Compilation based on many years of experience for application in various industries
- Central availability of the products for every employee
- By storing on the wall panel, the completeness of the assortment is visible at a glance.
