

31-2 Universal steering wheel puller, up to 90 mm clamping range

DESCRIPTION

The universally applicable puller is used for the gentle removing of steering wheels in various designs. The particularly strong design of the puller withstands even the strongest stresses.

RANGE OF APPLICATION

For gentle removal of steering wheels

BENEFIT

- Universally usable thanks to variously sized inserts
- Secure placement of the spindle through a rotatable spindle tip on both smooth surfaces and in centering (Switch Technology)

OPERATION

- Remove the steering wheel fixing screw
- Select the appropriate insert ring according to the diameter of the steering column
- Insert the ring into the puller body
- Position the puller behind the steering wheel and manually pull the spindle to create pressure
- Rotate the hexagon on the spindle head with a ratchet or a ring spanner until the steering wheel is removed

MASTER DATA

GTIN [EAN]	4021176013966
Country of origin	DE
Case material	Tool steel
Series	31
Net weight [kg]	4,86 kg
Package contents	1 piece
Packaging Act	PAP 20
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
