

142-2 Universal windscreen wiper puller with Ø jaw opening, 65 mm overall height

DESCRIPTION

The universal pullers for wiper arms in the 142 series are used for removing stuck, rusted, and deeply installed wiper arms in the automotive sector. The optimal bell shape and easy adjustability make the puller applicable for most models of common wiper arms.

RANGE OF APPLICATION

For pulling off stuck, rusted and recessed windscreen wiper arms

BENEFIT

- Suitable for windcreens and rear windows where the washer hose goes through the hub
- The choice of special threads allows for particularly high pulling forces
- Especially gentle pulling thanks to a special pressure piece on the spindle
- Anti-slip device on the spindle head for safe working with a wrench
- Spindle outlet for thread protection

OPERATION

- Spread the jaws apart and slide the claws under the component.
- Attach the puller to the wiper arm.
- Operate the spindle to release and remove the wiper arm.

MASTER DATA

GTIN [EAN]	4021176555602
Country of origin	DE
Case material	Tool steel
Series	142
Net weight [kg]	0,26 kg
Package contents	1 piece
Packaging Act	PAP 21
