

224-678 Tool cabinet with puller set 30 pieces

DETAIL IMAGE

DESCRIPTION

The fully stocked, 30-piece tool cabinet 224-678 made of sturdy sheet metal is used for safe and clear storage of tools. The tool cabinet includes various extractors and separators, an internal extractor with slide hammer, two 3-jaw pullers, and different thread adapters. This assortment is suitable for external extraction, internal extraction, and separating extraction. The perforated grids on the back wall offer plenty of space for attaching tool holders. The tool cabinet features lockable doors with a cylinder lock and a maximum load capacity of 50 kg. The high-quality steel cabinets can be flexibly integrated into various working environments, adapting to individual requirements.

RANGE OF APPLICATION

For safe and clear storage of tools

BENEFIT

- Safe and clear storage in lockable tool cabinet
- Application-oriented compilation for universal pulling

MASTER DATA

GTIN [EAN]	4021176141614
Country of origin	DE
