

720-004 Pin punch Ø 4 mm

APPLICATION IMAGE

DESCRIPTION

The pin punch of the series 720 is used for driving out pins and similar parts in crafts, industry, and workshops. The pin punch is available in various tip diameters and shaft lengths, allowing for the selection of the optimal tool depending on the application.

RANGE OF APPLICATION

For driving out cotter pins and similar parts

BENEFIT

- The specially treated extra-chrome-vanadium steel and the chromed surface ensure a long service life and reduced burr formation.
- The curved shape of the handle ensures an optimal grip and prevents slipping, thus guaranteeing particularly safe operation.
- The different sizes have a colour coding and can thus be easily distinguished.

OPERATION

- Select the appropriate size for the affected dowel pin
- Insert or place the pin punch into the hole
- Use a hammer with the pin punch to drive out the dowel pin

MASTER DATA

GTIN [EAN]	4021176103247
Country of origin	DE
Case material	Tool steel
Series	720
Net weight [kg]	0,7 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
