

610180 Spindle for ball bearing pullers (series 70) 70-1

DESCRIPTION

The mechanical pressure spindles are spare parts for KUKKO pullers and guarantee particularly good glide properties in the thread thanks to their special coating. The mounted, freely rotating spindle tip protects the shaft from damage when applying pull-off force.

RANGE OF APPLICATION

Replacement part for KUKKO puller

BENEFIT

- The spindle heads are equipped with a flange that prevents the wrench from slipping during the pulling process.
- A tube of KUKKO special grease for pressure spindles is included in the delivery package

MASTER DATA

GTIN [EAN]	4021176208003
Country of origin	DE
Case material	Tool steel
Series	600000
Net weight [kg]	0,16 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
