

W-714-2 Thread restorer for external thread diameter 25 - 65 mm, total length 260 mm

DESCRIPTION

The thread restorers of the W-714 series are used to repair damaged threads and similar parts in craft, industry, and workshop. The thread restorers are capable of reliably restoring threads even on special parts, which would otherwise be significantly more expensive to purchase new.

RANGE OF APPLICATION

For the repair of damaged threads and similar parts in crafts, industry, and workshops.

BENEFIT

- Suitable for right-hand and left-hand threads
