

**Soldering station, Manufacturer's designation: PICO****Order data**

Order number	082301 PICO
GTIN	
Item class	04K

**Description****Version:**

Temperature-controlled soldering station with ceramic PTC heating element and internally-heated Ersadur long-life soldering tips (precise temperature control). Simple i-CON PICO operating concept, for entry-level users. Universal application. Very small footprint and smart functions, can be set using a micro-SD card.

**Application:**

For all professional electronics and electrical soldering applications.

**Technical description**

Manufacturer's designation	PICO
Heating power	80 W
Warm-up time to 280 °C	approx. 9 s
Heating power	230 W
Control range of soldering tip temperature	150 - 450 °C
Weight of soldering iron without power cable	30 g
Power supply	Mains operated
Type of product	Soldering station

## Accessories

Lead-free soldering wire Sn96.5, Ag3.0, Cu0.5, roll of 250 g Soldering wire Ø 1,5 mm	082365 1,5
Soldering tip Manufacturer's designation CDLF16	082401 CDLF16
Desoldering pump PDD03 plastic, antistatic	082355
Soldering tip Manufacturer's designation PDLF10	082401 PDLF10
Soldering tip Manufacturer's designation CDLF12	082401 CDLF12
Soldering tip Manufacturer's designation CDLF24	082401 CDLF24
Soldering tip Manufacturer's designation CDLF32	082401 CDLF32
Soldering tip Manufacturer's designation PDLF07	082401 PDLF07
Lead-free soldering wire Sn96.5, Ag3.0, Cu0.5, roll of 250 g Soldering wire Ø 1 mm	082365 1
