Tool24 PickOne – master system EN, Total number of compartments: 320

Order data

Order number	979211 320
GTIN	4062406134150
Item class	9SA

Description

Version:
Goods issuing system with innovative drum system to ensure secure individual withdrawal of every item. Very quick goods removal due to low access times, self-opening compartment and visual signal at the correct withdrawal compartment. The drum of the Tool24 PickOne is available with up to 4 different compartment sizes as standard configuration and with a load capacity of more than 1000 kg, specially designed for industrial use. Flexible attachment of a touch screen thanks to double-sided perforated panel.
The master system can be extended with additional extension systems and combined with all Tool24 hardware variants.
This article is compatible with the Hoffmann Group Connected software solutions. 2 compartment variants, ideal for discharging of item portfolios with similar dimensions, such as gloves.
Advantage:
Hoffmann Group Connected
With this article you are gaining a building block for your digitally networked production. Increased productivity can be achieved together with the respective software module.
Supplied with:
22 inch touch screen; barcode scanner; PC including Basic software package, **operating system in English.**

Colour:
Body RAL 7035 light grey, fronts RAL 7016 anthracite grey, **powder-coated.**
Note:
The drum of the Tool24 PickOne is individually and uniquely configurable for each customer with 4 different storage sizes depending on the portfolio of items to be issued. Talk to your technical adviser.
The weights do not include a PC and monitor.
