Garant

Tool24 Locker – extension system, Type: 300/14

Order data

Order number	979320 300/14
GTIN	4062406134808
Item class	9SA

Description

Version:
Goods issuing system with compartments of different sizes to ensure secure and complete documentation of individual withdrawals. The compartment sizes permit storage of larger items and are prepared for charging of batteries. LED interior lighting available as standard both assists identification and withdrawal of items in the compartments that open automatically, even in dark environments. The LED strip along the compartments assists both insertion and withdrawal. Perforated panels fitted to both ends permit the flexible attachment of a touch monitor for master variants. Easyfix hooks and holders together with all other perforated panel accessories listed in our catalogue can be fitted.
The master system can be extended and combined with additional extension systems of any Tool24 hardware variants. Individual issuing system for storage of medium-sized items.
Application:
Automatic individual issuing system also for storage and management of bulky items such as large PPE, power tools, hand tools and our L-BOXX® modular plastic boxes.
Fitted with:
Number of compartments ×height in mm: 12 × 220; 2 × 300
Colour:
Body RAL 7035 light grey, fronts RAL 7016 anthracite grey, **powder-coated.**
Note:

All compartments are pre-configured for provision of a power supply via the technical duct. The connection of individual chargers must be arranged by the customer. The weight values in the technical data are for the extension system cabinets themselves, without PC and display screen. Compartments with viewing windows, individual colours and dimensions (compartment sizes, cabinet widths and depths) are optionally available.
Please speak to your specialist adviser!
