

**Half-face mask Series 6500QL, Size: M****Order data**

Order number	097237 M
GTIN	051141563480
Item class	04M

Description**Version:**

Lightweight mask body in compact design for **unrestricted view of the work area**. Double filter system for reduced respiratory resistance and good weight distribution. The **"quick-release" mechanism** makes it easy to fit and remove the mask with only a short break in work. During breaks in work the mask should always be worn with the open side against the chest, to prevent dirt settling in the mask. **Long working life** - silicone material ensures high stability of the shape even in hot working environments. The mask is characterised by an **optimum seating seal** and ensures easy cleaning. In combination with particle filters, the mask can be worn with a head piece of the 3M™ Speedglas™ series.

With **"Quick-Release" mechanism** for ease of putting the mask on and taking it off. **Long working life** - silicone material ensures high stability of the shape even in hot working environments. **Optimum sealing fit**.

Version of the advertising text:
