

Parting-off toolholder, Type: V40

Order data

Order number	319151 V40
GTIN	4251414900011
Item class	38T

Description

Version:

- **Offers a tool-specific manual Y-axis (± 1 mm).**
- **With movable alignment pin, hence alignment bars no longer required.**
- **Simple change-over from internal to external coolant feed.**

The first successful introduction of a tool mounting design which can be used on both disc turrets and radial turrets. Irrespective of the alignment method in use.

Modular system configuration.

Advantage:

- **Less wear at the cutter.**
- **Saves costs and time.**
- **Height and rotation adjustment (bearing alignment).**
- **Toolholders can be used on all VDI and Mazak machines.**
- **Modular - one toolholder offers many mounting options.**
- **Very good damping characteristics.**
- **All tools with direct internal coolant supply connection.**
- **Cost reduction via efficient stock-holding of bearings.**
- **Higher productivity due to improved positioning.**

Application:

Suitable for disc turrets and radial turrets
for boring bar head type: B

suitable for: VDI

Technical description

for boring bar head type

B

suitable for

VDI
