

Respirator set with blower unit Jupiter™

Order data

Order number	097280
GTIN	4054596068940
Item class	04G

Description

Version:

Respirator system with no limit on wearing time. The Jupiter™ blower system ensures the supply of clean breathable air **without breathing resistance** for easy use under various different working conditions. The flat design means it is ideal for use in restricted working areas. The charge level of the battery and the air flow to the head are continually monitored electronically. A warning is given immediately acoustically and visually in the event of irregularities. Easy handling and maintenance.

Application:

For protection against water-based and oil-based toxic and carcinogenic dusts, smokes and aerosols at up to 10 times the workplace limit concentrations. Protection against organic gases and vapours with boiling point >65 °C and concentrations up to 0.5 % by volume.

Supplied with:

- **Jupiter™ blower unit with comfort belt that can be decontaminated.**
- **Airflow indicator and calibration unit.**
- **A2P combination filter pair against organic gases and vapours as well as particles.**
- **Pre-filter pair.**
- **Length adjustable air hose BT30.**
- **NiMH rechargeable battery with approximately 8 hours of operation and charger.**

Note:

The Jupiter™ respirator set with blower unit is supplied **without headpiece**.

Manufacturer's designation: JPRTU1
