| Item class | 08E |

Description

Version:

General-purpose wet film separating agent. Separating film for thermoset resins and thermoplastics, resistant to high temperatures.

- **Wet film separating agent with high separation performance.**
- **Silicone-free, minimises material carry-over on to moulded parts. Ideal for moulded parts with a further processing stage (painting, printing or adhesively bonded).**
- **Operating temperature range up to 200°C.**
- **Does not accumulate in the mould.**

Application:

In plastic injection moulding, to assist the release from the mould of thermoset resins and thermoplastics. Also outstandingly suited to assisting the release of moulded parts with complex geometries.

- **Apply a thin even film to the clean dry mould.**
- **Wait a short time until the solvent has evaporated.**
- **For sustained separation effect, repeat the process.**
- **Refer to the current safety data sheet (SDB) for safety instructions.**

Technical description

| | |
|-----------------------------------|----------------------------------|
| Contents | 500 ml |
| Spray head | Standard |
| Labelling of hazardous substances | GHS02: Flame |
| Labelling of hazardous substances | GHS07 caution |
| Labelling of hazardous substances | GHS09 harmful to the environment |
| Colour | yellow-brown |
| Solubility in water | insoluble |
| hazardous goods class | 2.1 |
| Version | Spray can |
| Type of product | Parting agent |
