

## Wet film separating agent NSR Food, Contents: 500ml

### Order data

Order number	083091 500
GTIN	5412386065644
Item class	08E

### Description

#### Version:

Silicone-free wet film separating agent for plastics processing. With NSF M1 registration, suitable for use on packaging materials with foodstuffs contact.

- **Colourless separating fluid with separation effect, in particular on thermoplastics.**
- **Improves the surface quality of PLA (Polylactid Acid), PC (Polycarbonate), PE (Polyethylene) and PP (Polypropylene).**
- **Silicone-free, minimises material carry-over on to moulded parts. Ideal for moulded parts with a further processing stage (painting, printing or adhesively bonded).**
- **High operating temperature range up to 200°C.**
- **Does not trigger any stress cracking of plastics.**
- **NSF registration: Category M1, registration number 155325.**

#### Application:

To assist the release of plastic and rubber moulded parts, especially for packaging materials for the foodstuffs industry. As a silicone-free anti-friction agent for the foodstuffs industry.

- **Apply a thin even film to the clean dry mould.**
- **Wait a short time until the solvent has evaporated.**
- **For sustained separation effect, repeat the process.**
- **Refer to the current safety data sheet (SDB) for safety instructions.**

## Technical description

Spray head	Standard
Contents	500 ml
Colour	yellow
Labelling of hazardous substances	GHS02: Flame
Labelling of hazardous substances	GHS07 caution
Labelling of hazardous substances	GHS09 harmful to the environment
Solubility in water	insoluble
Version	Spray can
Type of product	Parting agent
