Item class	08M

### Description

#### Version:

The **tesa® 4621** is a general-purpose fabric adhesive tape suitable for use outdoors. It can easily be torn by hand both across and along the tape. In addition it offers the tape can be gently **unrolled or rolled up**, is watertight and resistant to UV. It can be removed up to 8 weeks from application, leaving no residues.

With the tesa® 4671 fabric tape in neon colours, you can master various tasks safely and reliably – particularly when marking various elements or in the event field!

The tesa® 4671 fabric tape is available in fluorescent neon colours and is often used by specialists for visible marking of various elements or as part of events. It is suitable for a wide variety of applications such as marking, fixing, securing or binding. tesa® 4671 can be easily torn by hand, is easy to mark, does not reflect and can be shaped. The combination of acrylate-coated fabric and adhesive made from natural rubber ensures high abrasion resistance. The fabric tape can be removed leaving no residue and is available in the following colours: neon green, neon yellow, neon orange and neon pink.

#### Note:

Type of adhesive tape: single-sided

Adhesive: Acrylate

Colour: light green

Thickness: 0.13 mm

## Technical description

Colour	light green
"Best before" date	12 mo
Stretch capability	22 %
Liner present	no
Tensile strength	540 N/mm
Storage temperature	15 - 25 °C
Backing material	Fabric
Manufacturer's designation	4621
Thickness	0.13 mm
Storage humidity	50 - 70 %
Width	19 mm
Adhesive strength on steel	34 N/mm
Fabric fineness	100 mesh
Adhesive	Acrylate
Type of adhesive tape	single-sided
temperature-resistant up to	95 °C
Length	50 m
Product name attribute	light green
Type of product	Adhesive tape
