

**Bump cap with card holder HardCap Aerolite®, navy, Type: MICRO****Order data**

Order number	097842 MICRO
GTIN	5038428365451
Item class	09W

Description**Version:**

The **baseball style** Aerolite® HardCap bump cap is made of a **lightweight material** (expanded polypropylene) in conjunction with a sturdy HDPE shell. The water-repellent cap has a **ventilation mesh** at the side, which ensures very good breathability. In addition the cap has **reflective strips at the side**, which provide additional visibility. The cap has an **integral sweatband** for additional comfort. Both the sweatband and also the backing material are coated with Polygiene®, prevents the formation of unpleasant odours. Above all the cap offers an impressively **low weight** of less than 135g, without compromising the performance and safety. The resilient adjustment tape sits lower than for other caps, which guarantees better seating. In addition, this variant of the HardCap Aerolite® has a card holder on the front.

Standard:

EN 812

Note:

On request, the bump caps can be customised with your logo!
