

# GARANT Master Steel DEEP solid carbide deep hole drill, plain shank DIN 6535 HA 30×D, TiAlN, Ø DC j6: 4mm

### **Order data**

| Order number | 123895 4      |  |  |
|--------------|---------------|--|--|
| GTIN         | 4062406268824 |  |  |
| Item class   | 10E           |  |  |

## **Description**

#### **Version:**

**Excellent chip evacuation** due to the unequal helical pitch of the flutes, guide rings and additional flute lands for very high precision when drilling. **Maximum process reliability** due to exactly matching tools within the overall system. Drilling up to the maximum depth without a pilot drill. **Significantly increased tool stability** due to the substantially strengthened core. **Increased metal removal rates** and **outstanding tool lives** lead to an economical high-end drilling process.

#### Note:

Flute length  $L_c = L_2 + 1.5 \times D_c$ . For deep holes greater than 20×D, a pilot hole to the maximum drilling depth with pilot drill No. 123885 is absolutely essential. The generation of a pilot hole improves process reliability. The specified L/D ratio gives the minimum achievable depth of hole with the respective deep-hole drill.

## **Technical description**

| recommended maximum drilling depth $L_2$ | 128 mm                  |  |
|--|-------------------------|--|
| Standard                                 | Manufacturer's standard |  |
| Tolerance nominal Ø                      | j6                      |  |
| Overall length L                         | 176 mm                  |  |
| Shank Ø D <sub>s</sub>                   | 6 mm                    |  |
| Nominal Ø D <sub>C</sub>                 | 4 mm                    |  |
| Feed f in steel < 900 N/mm <sup>2</sup>  | 0.09 mm/rev.            |  |
| Flute length L <sub>c</sub>              | 134 mm                  |  |

| Number of cutting edges Z | 2                 |  |  |
|---------------------------|-------------------|--|--|
| Series                    | Master Steel      |  |  |
| Coating                   | TiAIN             |  |  |
| Tool material             | Solid carbide     |  |  |
| Version                   | 30×D              |  |  |
| Point angle               | 138 degrees       |  |  |
| Shank                     | DIN 6535 HA to h6 |  |  |
| Through-coolant           | yes, with 40 bar  |  |  |
| Machining strategy        | HPC               |  |  |
| Pilot drill required      | yes, pilot drill  |  |  |
| Colour ring               | green             |  |  |
| Type of product           | Jobber drill      |  |  |

# **User data**

|                                | Suitability                               | $\mathbf{V}_{\mathrm{c}}$ | ISO code |
|--------------------------------|---|---------------------------|----------|
| Steel < 500 N/mm <sup>2</sup>  | suitable                                  | 105 m/min                 | Р        |
