Description

Version:

The **PowerCap® Active™** combines 3 types of protection in a single product. The powered air respirator system provides breathing protection against particles; the impact cap provides head protection against light impacts and the visor protects the face.

- **Powered air respirator system: With a blower performance of 160 ltr/min without resistance to breathing and without the visor misting up, the PowerCap® Active™ guarantees protection against particles to EN 12941 TH1P.**
- **Head protection: The PowerCap® Active™ is based on the JSP Hardcap A1+™, which satisfies EN 812. The cap can be removed and washed in the washing machine.**
- **Face protection: The PowerCap® Active™ offers eye protection to EN 166. The visor protects the entire face against flying particles.**

There are also many spare parts and accessories for the PowerCap® Active™: Particle filter, pre-filter, spare cap, standard visor, tear-off visor, impact protection visor, face seal (chin protection), car charger, universal charger, rechargeable battery, charging station.

Standard:

EN 12941 Schutzstufe TH1, EN 812, EN 166

Supplied with:

1 × PowerCap® Active™, 1 × battery, 1 × charger, 1 × pair particle filters, 1 × pair pre-filters, 1 × air flow indicator.

Manufacturer's designation: CAE602-941-100
