

Ansell**Pair of gloves HyFlex® 11-561, Glove size: 10****Order data**

Order number	094569 10
GTIN	
Item class	04P

Description**Version:**

HyFlex® 11-561. The working life of the cut-resistant gloves is extended by the use of breathable FORTIX™ technology and the reinforced joint between thumb and index finger. This technology also provides a better grip and is very hard-wearing. The use of INTERCEPT™ yarn achieves higher cut protection. Because of their good wearing comfort and high freedom of movement for the fingers, the gloves can be used in both dry areas and oily areas. They are silicone-free and have been dermatologically tested.

Standard:

EN 388; EN 420

Note:

The minimum order quantity corresponds to one pack unit quantity (VPE) or a multiple thereof.

Technical description

silicone-free	yes
Glove size	10
Contents	12

Glove characteristics	Suitable for allergy sufferers
Glove characteristics	DMF-free
Glove characteristics	Foodstuffs certified
Glove characteristics	Silicone-free
