Cutting disc PSF STEELOX EXTRA THIN, Disc Ø: 115mm

# Order data

| Order number | 563435 115    |
|--------------|---------------|
| GTIN         | 4007220560266 |
| Item class   | 55T           |

# Description

#### Version:

- Grit, bonding, abrasive additives as well as reinforcement of the cutting discs are optimised for maximum cutting performance and working life in their respective applications.
- Thin cutting discs (0.8 mm / 1.0 mm / 1.6 mm) specially suited for quick burr-free cutting with low thermal stress. On older angle grinders please ensure discs are precisely centred! Cutting discs from 2.0 mm disc thickness exhibit increased lateral stability, stiffness and service life.
- $\cdot$  Shapes: Cutting discs flat (shape 41) or with depressed centre (shape 42).

Extra thin cutting disc for very quick low-burr cutting with low thermal stress and easy ergonomic cut guidance.

General-purpose PSF-Line cutting discs for cutting off sections, pipes etc.

### Application:

For freehand cutting using electric and pneumatic angle grinders with maximum 80 m/s peripheral cutting speed  $v_{c}$ .

# Specification:

# A60P-PSF-STEELOX.

# Note:

The disc thickness should be at least 20% of the material thickness to be cut. For stainless steel, use cutting discs at reduced speed.
