Order number	098208 SET
GTIN	4054596920743
Item class	040

Description

Version:

The 3M™ Adflo™ with the Speedglas™ G5-01 series welding mask offers robust respiratory protection in a compact design. The ergonomic, adjustable strap and the flip-up welder's protective shield with transparent visor ensure comfort and a wide field of view. This set is supplied without a welding filter. Thanks to warnings in the event of weak airflow or low battery charge, it is ideal for intensive work environments. A storage/transport bag and a consumables kit are included.

Head sizes: 50 – 64 cm

Clear visor field of vision: 104×170 mm

Standard:

EN 175:1997; EN 166:2001; EN 12941:1998 A1:2003 + A2:2008; EN 14594:2018
