

Welder's safety goggles

Order data

Order number	096825 5
GTIN	4062406295387
Item class	02B

Description

Version:

Lightweight safety glasses with **distortion-free field of vision** and good fit to the shape of the face. **Good coverage** in the eyebrow and cheek areas. The coating of the safety glasses is **resistant to a small number of scratches**; however it does not achieve complete scratch resistance to EN166 (K mark). This minimises the risk of weld sparks burning into the lenses.

Metal-free.**Standard:**

EN166; EN169
