

Face protection screen Model 9710 514, Type: PET

Order data

Order number	097889 PET
GTIN	4031101818450
Item class	09N

Description

Version:

Disposable face protection in a single size (54-64 cm), to keep the face free of contamination and liquids. Soft internal foam padding for high wearing comfort even when worn for extended periods. Not suitable for protection against mechanical hazards such as high-energy projected particles. This face protection protects against droplets and splashes of liquid. It thus reduces the risk of infection carried by droplets. The design provides complete protection against viruses, bacteria and other biological agents only to a limited extent.

- **White textile rubber strap.**
- **Dimensions: 330×230 mm.**
- **It can be combined with other face protection masks.**

Standard:

EN 166

Note:

- **This face protection protects against droplets and splashes of liquid. It thus reduces the risk of infection carried by droplets. The design provides complete protection against viruses, bacteria and other biological agents only to a limited extent.**
- **This face protection may be used only for the duration of the current health hazard.**
- **It can be combined with other face protection masks.**
- **The product should be disposed of after being used once!**

Lens coating: condensation-free

Lens tinting: clear
