

**Garant****Ceramic grinding bodies Triangular (oblique), coarse, Type: 1015TA****Order data**

Order number	501520 1015TA
GTIN	4062406372682
Item class	58F

**Description****Version:**

**Ceramic grinding bodies** (aluminium oxide abrasive grit bonded in ceramic) are the **most widely used mass finishing tools** and are **suitable for universal use**. **Very dense** and **excellent abrasive effect**.

High-performance version for **fast machining**. Low self-abrasion, long service life.

**Application:**

For **fast deburring and rounding** of edges and as a **preliminary stage for polishing steel, stainless steel** and other **steel alloys**. Also suitable for rough machining on plastic and non-ferrous metals, with the risk that the grinding bodies clog faster, which reduces their abrasive effect.

The **triangular (oblique)** shape is the most universal shape.

**Technical description**

Shape description	Triangular (oblique)
Height	10 mm
Length	15 mm

Grit designation	coarse
Series	GMT
Grinding media	Standard aluminium oxide (A)
Grinding medium code	A
Product name attribute	coarse
Contents	25 kg
Type of product	Polishing head

## User data

	Suitability	$V_c$	ISO code
Alu Mg	suitable only under restricted conditions		
Steel < 900 N/mm <sup>2</sup>	suitable		
Steel < 1400 N/mm <sup>2</sup>	suitable		
Steel < 55 HRC	suitable		
Steel < 60 HRC	suitable		
Steel < 67 HRC	suitable		
Carbide (HM)	suitable
