

Garant**Ceramic grinding bodies Cylinder (oblique), coarse, Type: 1020CA****Order data**

Order number	501530 1020CA
GTIN	4062406372743
Item class	58F

Description**Version:**

Ceramic grinding bodies (aluminium oxide abrasive grit bonded in ceramic) are the **most widely used mass finishing tools** and are **suitable for universal use**. **Very dense** and **excellent abrasive effect**.

High-performance version for **fast machining**. Low self-abrasion, long service life.

Application:

For **fast deburring and rounding** of edges and as a **preliminary stage for polishing steel, stainless steel** and other **steel alloys**. Also suitable for rough machining on plastic and non-ferrous metals, with the risk that the grinding bodies clog faster, which reduces their abrasive effect.

Cylinder (oblique) shape, ideal for surface preparation (flat, free-form surface).

Technical description

Length	20 mm
Diameter	10 mm
Shape description	Cylinder (oblique)

Grit designation	coarse
Series	GMT
Grinding media	regular aluminium oxide (A)
Grinding medium code	A
Product name attribute	coarse
Contents	25 kg
Type of product	Grinding body

User data

	Suitability	V_c	ISO code
