| Item class | 11 J |

## Description

## Version:

Corrected thread profile for milling exact internal threads (ensure stable clamping conditions). Incorporating a countersink profile for a $90^{\circ}$ countersink. A stronger core diameter, two narrow geometrically optimised chip flutes and a special drill point result in good chip formation and low cutting pressure.

## Advantage:

Drilling, countersinking and thread milling all with a single tool!
Note:
HB shank: order with No. 139516 + 12900 HB.
HE shank: order with No. 139516 + 12900 HE.
HB and HE shanks are available at the same price as HA.
