

ARIANA**Overflow protection, Type: 15****Order data**

Order number	084326 15
GTIN	4037728513518
Item class	08J

Description**Version:**

The overflow protection siren is an important features on any machine that is filled with emulsion or oil. It warns the user acoustically and visually via a light against immanent overflowing. The flexible neck allows the level within the basin to be determined.

Advantage:

- **Acoustic fill level monitoring on your machine tool.**
- **Eliminates unnecessary hall cleaning work caused by overflowing containers.**
- **Excellent monitoring of the maximum or minimum fill level.**
- **Easily secured by magnetic plate.**
- **Device is operated with a 9-volt block battery.**

Technical description

Signal type	acoustic
Signal type	haptisk
Power supply	Battery-powered
International size	6LR61

Data sheet

Battery type	9 V block
Nominal voltage	9 V
Type of product	Signalling device
