

Safety container type I, red, Volume: 7,5l

Order data

Order number	981182 7,5
GTIN	697841139985
Item class	97S

Description

Version:

Safety and transport containers reduce the risk of fire and explosion when filling and storing flammable liquids. They improve efficiency with user-friendly functions which improve pouring and filling.

Steel safety container type I, guaranteed to be 100% leak-proof. Self-closing, leak-proof cover protects against leakage of vapours and against spillages. Overpressure relief caps automatically vent to prevent media escaping and explosions. The flame arrester made of stainless steel dissipates heat to stop flashback ignition. Double closure seams at the bottom and top provide additional protection against impacts. Reinforced walls prevent buckling and implosions. Swivel handles on the containers for heavy loads. The tough powder coating is resistant to chemicals.

Standard:

FM-Zertifizierung sowie UL/ULC und TÜV SÜD.

Technical description

Capacity	7.5 l
Ø	240 mm

Height	350 mm
Colour	red
Manufacturer's designation	Type I Safety Cans - Red - Swinging Handle Type 1
Material thickness	3 mm
Storage	Storage of water polluting substances class 1-3
Storage	Storage of environmentally polluting substances
Storage	Storage of flammable substances permitted
Product name attribute	red
Type of product	Safety container
