

Welder's mask, automatic 3M™ Speedglas™ G5-02, Colour: BLACK

Order data

Order number	097911 BLACK
GTIN	4054596717886
Item class	040

Description

Version:

The automatic welding mask **Speedglas™ G5-02** is equipped with the first **curved auto-darkening filter** in the world. Furthermore, the welding filter can follow the curved shape of the head, thus enabling a **field of view that is as wide as possible** with a **slim mask design**. The **Natural Colour Technology** for outstanding colour perception permits maximum monitoring of the electric arc during the welding process. A **shade level in the light state of 2.5** permits particularly good visibility for intermediate processing. A user-friendly menu, the **3M Connected Equipment App**, which helps to set up the correct settings, as well as the usual premium features of a 3M™ Speedglas™ automatic welding mask complete the picture.

Shade levels: 8 – 12

Shade level in the light state: 2.5. With lithium 3 V battery (working life 1500 hours).

Field of view of the welding filter: 76 × 150 mm:

Standard:

EN 175:B; EN 379; EN 166:BT
