

Garant
Software option, roughness, Type: BASIS

Order data

Order number	499252 BASIS
GTIN	4062406581336
Item class	41Q

Description
Version:

Software option for measuring the roughness from a roughness value of Rz 1 or Ra 0.3. Simple and intuitive operation. Determination of roughness, ripple and primary profile. Standard evaluation of all parameters to ISO 4287, ISO 12085, JIS 601 B, ISO 13565 II, ISO10049.

- **Automatic selection of limit wave length of the filter (cut-off) and sampling section to ISO 4288 and ISO 3274.**
- **Evaluation parameters can be provided with tolerance limits and intervention limits on both sides.**
- **Can be retrofitted for devices from build year 11/2020.**

Optional extras:

Roughness probe tips No. 499273 and 499275, roughness standard 499580. Update from basis to PRO No. 499253.

Note:

Technical support and training on request.
