

File set with 2-component handle, 6 pieces in a tool roll Metal/wood, Cut 2, Length without tang: 250mm

Order data

Order number	517417 250
GTIN	4009215192285
Item class	56B

Description

Version:

The blanks are forged and ground; manufactured with an exact cut of even density and depth using special machines. These **non-convex files** have tooth profiles appropriate to each grade of file.

To protect the files, the set is arranged in a **strong transparent roll-up nylon wallet**.

Protected files cannot be contaminated and the cut is protected against damage; this ensures a consistently high removal rate, smooth file surfaces, and an extended working life.

2nd cut = Cut 2.

With ergonomic 2-component plastic handles.

Application:

Quality file for workshop use with long tool life and high removal rate.

Supplied with:

6-piece file set with one each of **flat, half-round and round rasp for wood**, and one each of **flat, half-round and round file for metal**.

Technical description

Product name attribute	Cut 2
Cut	2

Standard	DIN 7261
Number of individual files	6
Type of product	Engineer's file

User data
