

KIMTECH**Kimtech™ Science™ lab wipes Dispenser box, Type: K****Order data**

Order number	089244 K
GTIN	5033848037360
Item class	08T

Description**Version:**

Effective cleaning of equipment, materials and working environments is essential for ensuring the precision, stability and durability of the equipment in the laboratory. Kimtech® Science offers wipes for demanding tasks designed to maintain cleanliness in laboratories and other working environments. The 2-layer precision wipes for **light cleaning work** are suitable for tasks such as **cleaning delicate glass and other devices and surfaces**. Lenses, lens carriers and optical instruments can be cleaned effortlessly. The soft, white wipes made from 100% pure fibres are chemically neutral, very absorbent and therefore **can be used together with solvents and chemicals**.

Thanks to the portable **dispenser box**, the wipes can be removed quickly and cleanly. The wipes are also suitable for mobile cleaning work. Suitable for use in laboratories in manufacturing and healthcare as well as in industrial sectors such as optics, laser technology and electronics; on top of that they are also low-lint and soft – ideal conditions for demanding cleaning tasks. The wipes absorb liquids and dust and are packed **anti-statically** to ensure protection against lint and static discharges.

Kimtech™ lab wipe for cleaning delicate glass equipment, instruments and surfaces.
