Cutting tool for plastic cable ties, Type: EVO CUT**Order data**

Order number	729969 EVO CUT
GTIN	4031026642222
Item class	76C

Description**Version:**

The cutting tool consists of a light-weight plastic housing and an ergonomic non-slip handle for a comfortable and secure grip. With tether attachment point for mounting a fall protection. The tool includes three interchangeable end caps for plastic cable ties of different widths and thicknesses.

Advantage:

The cable tie can be split at any point of the bundled cables without damaging the insulation or individual conductors.

Application:

For flexible power cables, bundles and power/water lines as well as rigid bundled cables – wherever quality and effectiveness play an important role, especially in delicate cable harnesses.

Technical description

for cable ties up to width	7.8 mm
for cable ties up to thickness	1.8 mm
Weight	140 g
Type of product	Cable tie gun
