Description
Version:

Suitable for all kinds of boring bar holders. Optimal in combination with vibration-damped boring bars such as GARANT Master Mute, and also beneficial when using other boring bars (e.g. carbide boring bars).

Advantage:

Due to the slotted version, the reducing adapter wraps around 100% of the boring bar, i.e. vibrations are reduced. Simple and fast alignment of the boring bar via ball or screw is possible.

Application:

For \varnothing reduction for tools with plain shanks.
