

Slim hydraulic chuck Master Chuck, HSK-A 63 short, Clamping ØD1: 18mm

Order data

Order number	307502 18
GTIN	4067263265368
Item class	31A

Description

Version:

- · Slim design (4.5° contour, identical to shrink contour according to DIN 69882-8)
- · With RFID/Balluffchip bore.
- · Axial length adjustment, adjustment travel 10 mm.
- Reducing adapters can be used.
- · Temperature resistant up to 120°C for 4 hours.
- · Up to 10× more clamping operations possible compared to a standard hydraulic chuck.
- · Very low tightening torque of the clamping screw easy handling.
- · Patented new hydraulic clamping system reliable and durable premium radial run-out.

Advantage:

Same properties as shrink-fit chucks:

- · Accuracy
- · Extremely slim, identical interference contour

Advantages over shrink-fit chucks:

- · Better damping
- · Simpler to use
- Flexibility (through reducing adapters)
- · No shrink-fit units required (costs, energy consumption)

Application:

Particularly for use in tool and mould making and wherever a reduced interference contour is required.

For drilling, reaming and milling.

For clamping tools with shank tolerance h6.

Supplied with:

Hexagon socket drive with T-handle.

Optional extras:

Coolant tube No. 309880, socket wrench No. 309890, reducing adapters No. 302140; 302135 302145 302147 each size 12 and No. 302150; 302155; 302160; 302165 each size 20.

Technical description

Adjustment travel V Overhang dimension A Clamping Ø D ₁ External Ø D Adapter	10 mm 95 mm 18 mm 42 mm HSK-A 63 short ISO 12164-1
