

Garant**Assembly set-up station, for pitch: 80****Order data**

Order number	358595 80
GTIN	4067263843719
Item class	310

Description**Version:**

The assembly station can be fitted to the workbench by means of two screws. Clamping studs, e.g. No. 363190, can be used to position the clamping device or jig with pitch 52/96 or 80 on the assembly station, with locking and unlocking by means of the side bridge. Set-up times are optimised with high process reliability when clamping workpieces or changing clamping jaws.

- **Locking and unlocking without tools.**
- **Reduction in set-up times.**
- **Ensuring safety at work.**
- **Patent pending.**

Application:

For mounting and removing workpieces in the clamping device and for changing or turning the clamping jaws.

Suitable for:

Clamping device with pitch of 80 and ZeroClamp clamping studs size 90, e.g. ZeroClamp No. 360134.
