**Description****Version:**

**Eco-friendly solution that makes no compromises when it comes to sturdiness and design:**

**The GARANT GreenPlus ear defenders** have more than 60% recycled content in the robust ABS plastic of the shell. The damping pads and sealing rings can be replaced using the hygiene kit (item No. 097782 size 1) – this maintains the protective performance for the long term, extends the life and reduces the risk of infection from contamination.

**Folding** ear defenders with padded, adjustable headband made of POM in slim design. They can be folded up when not in use and stored easily thanks to the compact dimensions. Recycled content in the ABS material: 68%. SNR 32 dB (H = 36 dB; M = 29 dB; L = 22 dB).

**Note:**

Hygiene kit can be found under No. 097782 size 1.
